**DISTINCTION**

- JUST is one of the most advanced universities in the region.
- Quality career-oriented undergraduate and graduate programs in select fields.
- Excellent academic resources.

**DIVERSITY**

- Secure and spacious campus which covers 11 km².
- A home away from home for more than 17,000 students from (42) different countries.
- A wide variety of on-campus social, multicultural and intellectual activities.

**CREATIVITY**

- Highly qualified and dedicated faculty members.
- A stimulating center for scientific research.
- State-of-the-art labs and facilities.
- Advanced information technology support.
FOREWORD BY THE PRESIDENT

I invite you to share with us the vision of Jordan University of Science and Technology (JUST) as we emerge as an international university. Excellence in teaching and research remains the core mission of JUST as we continue to evolve. We believe that diversity leads to creativity and creativity leads to distinction; that is why we are determined to create future leaders who are imbued with the spirit of tolerance and global understanding. The number of our international students continues to rise; currently more than 3,500 of our 18,000 students come from outside Jordan. To bring our vision of becoming an international university to fruition, we established the International Students Office (ISO) earlier this year to meet the special needs of our international students.

Jordan University of Science and Technology was founded with the objective of graduating exceptional scholars. Our graduates have earned a reputation for excellence among employers in the Jordanian and Arab communities. Many employers in the Arab world and beyond constantly recruit and hire our graduates. This success is a witness both to our rigorous programs in applied science and to the high ethical and professional standard instilled in our students.

We will continue to internationalize and to establish ourselves as leaders in education and research. Globalization and information technology continue to advance and we recognize the value that these new technologies will bring to our educational system. Most of our faculty members and students take full advantage of technology in their classrooms and across campus. With the help of our partners, the JUST campus will soon become the first laptop digital campus in Jordan as well as the whole region.

Our family looks forward to seeing you on campus and sharing with you the great excitement JUST will offer.

President
Professor Wajih Owais

Guidebook 2005/2006
**THE UNIVERSITY**

Jordan University of Science & Technology (JUST) was established in 1986 as an autonomous national institute of higher education. This prestigious university was established with the aim of producing outstanding professionals in medicine, engineering, information technology, and related fields. From five in 1987, JUST has grown to eleven faculties comprising 55 departments. JUST academic programs have witnessed considerable development. In 2005, the University awarded 51 undergraduate and 95 graduate degrees. The number of students has risen from 2300 in 1986-1987 to more than 18,000 undergraduates and 1,000 graduates; more than 3000 of JUST students come from 41 countries.

The University Campus is 70 km north of Amman, the capital of Jordan, and 20 km east of Irbid City. The 11km² campus features spacious modern buildings that were constructed according to the latest architectural designs. The campus includes the University Farm, 12 auditoriums, a concert hall, fine arts galleries, museums, 8 restaurants, a housing complex, libraries, gymnasiums, tennis courts, and a 7000-seat football stadium.

**THE CITY**

Irbid

The city of Irbid, where most of our students reside, offers a friendly atmosphere in a comfortable and intimate setting that is only 20 minutes drive from JUST campus. The city offers a wide variety of services, including a range of housing options, shopping centers, and cultural and recreational facilities. University Street in Irbid is very lively and a popular hangout for students. There you would find fast food restaurants, coffee shops, boutiques, shops and internet cafes. Al-Hassan Sports City hosts major football, basketball, swimming, and gymnastics competitions, in addition to many others. Newcomers should have no difficulty exploring their interests and adjusting to life in Irbid.
THE COUNTRY

(Jordan)

Jordan offers an exciting location for studying abroad, as well as a rich history and some of the best-known attractions in the region. Its lively Arab culture, tradition, hospitality and strong family ties create a unique blend of warmth and charm. Amman, the capital of Jordan, is a modern city with excellent shopping, cultural, and recreational facilities. Petra, the city of rose-red stone, is one of the most overwhelming attractions in Jordan. Carved into the rock, this city is one of the marvelous wonders of the world. Other attractions are Jerash, a magnificent Graeco-Roman city on an ancient site. Jerash is justly famous for its Triumphal Arch and the Hippodrome. The Dead Sea, 392 meters (1286 feet) below sea level, and the lowest point on earth, has beautiful hotels and is an excellent weekend getaway.

Umm Qais in the north of the country is famous for its ruins. The Acropolis, built in 218 BCE; the forum, the colonnaded street with still-visible chariot tracks and the Nymphaeum are well worth a visit. Aqaba, at the northeast end of the Gulf of Aqaba is Jordans' only port, accessible from Amman by road or air. It is renowned for its beautiful beach and water sports, including windsurfing, scuba diving, sailing and fishing. The most popular local dish in Jordan is mensaf (stewed lamb in a yogurt sauce served on a bed of rice). The workweek is Sunday through Thursday. Friday and Saturday are official weekend days.
STUDENT AFFAIRS

JUST has a strong commitment to student involvement in extracurricular activities and leadership development. There are myriad opportunities for our students to participate in activities, organizations, and sports. Students also play a vital role in university governance by serving on many university committees. Your involvement in these activities is an important part of your education and our university tradition. The Dean of Student Affairs operates the Student Services Department, the Cultural and Social Activities Department and the Sports Activities Department.

HOW TO GET INVOLVED

Student Clubs

Students are encouraged to join clubs that promote their interests and hobbies. The clubs at JUST span a wide range of interests that include sports, music, outdoor recreation, culture, and social issue.

Athletics

JUST takes a great interest in the physical well-being of its students. JUST hosts national and international athletic competitions and tournaments. The new gymnasium, located at the center of the campus includes handball, basketball, tennis and volleyball courts. It also includes gymnastic equipment and rooms for practicing ping-pong, judo, archery, kick boxing, karate and taekwondo. Lockers and showers are available to students and staff. The 7000-seat University Stadium houses a soccer field, and tennis courts, and tracks.
Student Union

The Student Union was established in 1993. Students elect their representatives to the Student Council, which then chooses the chairman and the administrative committee. The goal of the Students Union is to foster strong and mutually beneficial relationships between students and the university academic department.

SERVICES

Housing

The university offers a variety of services to help female students with their housing needs. Dormitories are located on campus with shuttle services are available to ensure easy student access to campus locations. A downtown shuttle bus also provides free service Saturday through Thursday nights. Residential rooms are divided into four categories; standard triple, standard double, standard single, and private rooms. The university provides each resident with a bed, desk, chair, bookshelf, refrigerator and closet. All dormitory buildings have kitchens, living rooms, study rooms, and laundry facilities. Residential room rates are listed in the table below:

<table>
<thead>
<tr>
<th>Room Classification</th>
<th>Reservation Fee (Refundable)</th>
<th>Rate/Person*</th>
</tr>

<tr>
<td>Private</td>
<td>50</td>
<td>500</td>
</tr>
</tbody>
</table>

Counseling

Counselors work within the Student Services Department and King Abdullah Hospital. They aim to enable students to cope with any problems or difficulties of a personal or emotional nature that may arise. All is offered in strict confidence.

Health Insurance

Health care is available to all students, the cost of which is included in the semester fees. It covers 100% of most services offered by the University Health Centers. The university provides free life insurance coverage to all students.
HELP & ADVICE

International Students' Office (ISO)

Enrolling at a university, meeting new people and living abroad are all big challenges in your life. So, we will be on hand to help you to adjust to university life and will support you throughout during your stay at JUST. The International Student Office (ISO) was established in 2005 and is supervised directly by the president. Highly qualified coordinators and staff provide cultural, social and legal consultation, field trips, social events, and meetings with the president. The office is open Sunday through Thursday from 8:00 am to 5:00 pm, and the office employees are always ready to receive your inquiries and concerns.

ADMISSION

Admission Requirements

Candidates for admission must be holders of a Jordanian High School Certificate (Tawjihi) or an equivalent. Generally, there are minimum entry requirements to all academic programs (see table of programs). Students transferring from other universities may be exempted of up to 45 credit hours of equivalent courses taught at JUST, except students of medicine & dentistry faculties.

Language Requirements

JUST offers advanced academic programs at international standards in English and in line with the American credit system. The university offers intensive introductory, intermediate, and advanced English courses to students who wish to improve their proficiency.

Visa Requirements

Entry Visas to Jordan are required for non-Arab and some Arab citizens. Visa applications are found at a Jordanian Embassy or Consulate nearest to you. For further assistance, please contact the international students’ office (ISO).
# ALL ABOUT MONEY

## Cost of Living

In addition to tuition fees, students will need approximately JD 350-450 a month to cover accommodation, food, clothing, books, social activities and other day-to-day expenses. Living costs will of course vary depending on individual circumstances and lifestyle.

## Tuition & Fees

### Undergraduate Student's

The tuition and fees are listed in the table of "Academic Programs Offered." Other fees include the following:

### Fellowships & Grants

Distinguished students in all programs are eligible for fellowships.

The Student Research Fund offers grants to students with outstanding research achievements. Assistantships that cover 50% of tuition and provide a monthly stipend are granted to many graduate students every year.
LEARNING RESOURCES

Library

The University Library offers core services for learning and research. Many students spend a considerable amount of their time in the Library and make use of its substantial and growing number of online resources. Our Library has access to more than 509 databases which complement its printed materials.

Computing facilities

Information technology plays a vital role in research and teaching. Computers and workstations are available in most labs, classrooms, and cafes on campus. All computers in labs provide Internet access, e-mail, Microsoft Office 2003, and many other applications. Most instructors use the Internet to complement classroom instruction.

Research Centers

As befits a University with an international reputation, the prime directive of Jordans' University of Science and Technology is to advance and disseminate learning in the forms of research and scholarship. Training and supervision in research methodology, especially for postgraduate students, is reinforced by several research centers, such as the Queen Rania Al-Abdullah Centre for Environmental Science & Technology, Consultative Centre for Science and Technology, Energy Centre, Pharmaceutical Research Centre, Biotechnology Centre, and the Agricultural Centre for Research & Production.
Teaching and Research Laboratories

Undergraduate and postgraduate teaching and research projects are conducted in state-of-the-art research laboratories.

Medical Facilities

- King Abdullah University Hospital

King Abdullah University Hospital is a nationally recognized teaching hospital. JUST faculty of Medicine offers world-class specialty and primary health care. It was inaugurated by His Majesty King Abdullah II on November 28, 2002. We are proud that JUST Hospital is supported by state-of-the-art technology, the latest advances in diagnoses and treatment in addition to its outstanding team of physicians, surgeons, nurses, and physical therapists.

- Health Centre

JUST Health Centre (HC) in Irbid city was established in 1983 to provide medical care to students, faculty and staff. It is also a teaching centre that is recognized by Jordan Medical Council as a training centre for the residency program of family medicine.
Dental Centre

The dental health center in Irbid city trains future dentists. It also offers dental care to JUST faculty, staff & students and to the local community.

Veterinary Health Centre

Graduate and undergraduate students take classes in internal medicine, surgery, theriogenology, morbid anatomy and poultry diseases at Veterinary Health Centre. The centre is equipped with essential instruments and equipment to perform routine veterinary work.
General Academic Regulations for Awarding B.Sc Degree

Undergraduate programs offered by the university include four-year (130-138 credit hours), five-year (159-168 credit hours), and six-year programs (213-257 credit hours).

- **Credit Hours (C)**

  The academic year comprises two semesters and an optional summer session. For theoretical courses, one credit hour is equivalent to one lecture hour (H) per week for (16) weeks per semester. While for laboratories and clinical sessions (L), one credit hour is equivalent to (2-3) contact hours per week.

- **Course Prerequisites (Pre.)**

  Students may register for courses only after passing the prerequisite. The prerequisite can be taken concurrently with the course only under one of the following conditions:

  - The study plan of the department allows it.
  - The student fails the prerequisite.
  - The student is expected to graduate at the end of the semester.
  - A prerequisite that could be taken concurrently with the course is termed as Co-requisite (Cor.).

- **Study Load**

  The student is required to register for a minimum of (12) hours and a maximum of (18) hours per semester. The number of hours may be raised to (21), or reduced to less than (12), with the approval of the academic advisor and the dean of the faculty. The maximum load should not exceed (10) hours in the summer session. The total credit hours per week.

  Students are classified as second, third, fourth, fifth, or sixth year when they successfully complete (33), (66), (99), (132), or (165) credit hours of their study plan, respectively. The permitted duration to obtain a bachelor degree differs from one faculty to another.
Attendance

Attendance is mandatory. The student is not allowed to miss more than (10%) of the class periods. The university medical center should notarize all medical excuses.

Examinations and Grading

The grades are computed for each course as rounded numbers based on one hundred points. The final grade for each course is the sum of the final examination grade and the grades of the semester work. The final examination covers all the material of the course and constitutes (40%) of the grade of the course. Announced written tests, the pre-final evaluation may include quizzes, reports, or oral tests. Projects, seminars, and field application courses are graded differently as approved by the department. Any student who misses an announced test without an approved excuse will receive a grade of zero for that test. If the student presents an acceptable excuse by the dean, the instructor may hold a separate test for the student. The course instructor is fully responsible for managing the course including grading tests and exams.

A grade of "I" (incomplete) is recorded when the course requirements are not fulfilled due to illness or urgent circumstances beyond the students' control. The "I" grade should be removed within a maximum period of three weeks from the beginning of the following semester. Failing to do so, 35% grade will be given to the student. The passing grade is 50%, and the minimum grade is 35%. Minimum cumulative average is 60%. The scale for grading is as follows:

<table>
<thead>
<tr>
<th>Scale for letter grades</th>
<th>Scale of grades for the Cumulative average</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-100</td>
<td>Excellent</td>
</tr>
<tr>
<td>80-89</td>
<td>Very Good</td>
</tr>
<tr>
<td>70-79</td>
<td>Good</td>
</tr>
<tr>
<td>60-69</td>
<td>Pass</td>
</tr>
<tr>
<td>50-59</td>
<td>Week</td>
</tr>
<tr>
<td>Less than 50</td>
<td>Fail</td>
</tr>
</tbody>
</table>
Honors

The Deanship Honor List includes the names of all students obtaining a semester cumulative average of 85% or higher, and registered for a minimum of 12 credit hours in that semester.

University Honor List includes the names of students obtaining a semester cumulative average of 90% or higher.

Repeating Courses and Probation Regulations

The student cannot repeat a required course in which his grade was 60% and above, or a university elective course which he/she had already passed. If a course is taken again, the new grade is the one counted for the cumulative average calculation, and the previous grade would still appear on his/her transcript. Credit hours for any repeated course are counted once for the students’ graduation requirements. A student with a cumulative average of less than 60% shall be placed on probation at the end of any semester except the first semester of his/her studies and summer sessions.

The student placed on probation should remove the probation status within a maximum period of two semesters (not including summer session) following the semester in which he/she was placed on probation. A student who fails to remove probation is dismissed from the faculty. A student is dismissed from any faculty if his/her cumulative average is less than 50% in any semester except the first semester of his/her study. Excluded from dismissal is the student who completes 99 credit hours in the faculty of nursing and 132 credit hours in other faculties and departments.

Addition and withdrawal from Courses

The student may add new courses or withdraw from courses in which he/she has enrolled within the first seven school days of the semester or the first four school days of the summer session. In all cases, the student should not exceed or fall below the study load except with the deans’ approval. The student may withdraw from any course during the first eight weeks of a semester or four weeks of a summer session. The course will appear on his transcript with a notation of “Withdrawn.”
Postponement, discontinuation of study and withdrawal from the university

The student may defer his/her studies for a period not exceeding two years, with or without interruption. The postponement period is considered as part of the maximum time limit for graduation. New and transferring students are permitted to postpone their studies during the first semester of enrollment. The student will be dismissed upon failure to enroll again at the end of the postponement period.

A student may withdraw from the university upon submitting a request for withdrawal.

Transfer from other universities

Students may transfer from other universities upon fulfillment of the following:

- The student is transferring from an accredited university where attendance and regular enrollment are mandatory.
- Transfer would be to second year level or above.
- The student should satisfy admission requirements of the faculty to which he/she is transferring to.
- Credit hours are transferred only if they are in agreement with the study plan and the grades are 70% or above.
- Transferred credits are not computed with the students' cumulative average.
- Transfer within the university is not permitted. Students wishing to transfer from one faculty to another are treated as new students.

The regulations of the faculties of medicine, dentistry, veterinary medicine and pharm.D include different conditions and terms. The students are required to check with their academic units for details.
